SKILLS SUMMARY

Languages: C++, JavaScript
Frameworks: React.js, Express.js, Tailwind CSS
Front-End Technologies: HTML, CSS
Tools: MongoDB, Git and GitHub, Excel, PowerPoint
Platforms: Visual Studio Code
Soft Skills: Team Work, Communication

PROJECTS

Blog App

GitHub Repository

Technology: React, Tailwind CSS, Appwrite

- Implemented a blog application with user authentication features.
- Features include listing all posts from all users, login and logout functionality, and adding new posts.
- Utilized Appwrite for backend as a service, ensuring seamless backend management and user authentication.

Shopping App

GitHub Repository

Technology: React, Tailwind CSS

- Developed a shopping application with comprehensive product listing on the home page.
- Incorporated multiple filters including out of stock, fast delivery, price sorting, ratings, and clear all filters.
- Created a cart page that displays all added products and shows the total price for checkout.
- Utilized the Faker.js library to generate dummy data for product names, prices, availability, and images.

EXPERIENCE

Process Mining Virtual Internship

AICTE - EduSkills

May 2023 - July 2023

- Completed a 10-week virtual internship focused on process mining.
- Gained experience in analyzing and optimizing business processes.
- Supported by Celonis, a leader in process mining software.

EDUCATION

NSHM Knowledge Campus, Durgapur, India

B.Tech in Computer Science Engineering; Current CGPA: 8.60

June 2022 - June 2026
